American Heritage

Boos Blocks® kitchen islands, butcher blocks, tables, and carts are all part of America's heritage. Generations of families and professionals in the USA are proud owners of these beautifully crafted pieces of fine quality, workmanship and design. Some pieces are now vintage collectibles passed down through generations. Boos Blocks® gourmet kitchen furniture provides extra quality work space as well as natural beauty that provides a classic, authentic character and presence in your kitchen. They come in all shapes and sizes as well as many different colors and finishes.

Rouge et Noir

The John Boos & Co. Rouge et Noir (red and black) Collection is comprised of elegant gourmet furniture pieces hand crafted of solid American Cherry butcher block. The deep, rich hue of the cherry tops and caviar black bases perfectly captures the essence of class and luxury.

Cucina Americana

The Cucina Americana Series is a combination of beautiful hardwoods and sleek stainless steel professional kitchen carts, islands, and work stations. Magically transform the atmosphere of your kitchen with clean lines and the sophistication of these classic gourmet furniture.

Metropolitan Series

An ultra-modern collection of urban inspired kitchen islands and work stations. The John Boos & Co. Metropolitan Designer Series lends a sleek, refined design. The brushed stainless steel illuminates, as your eye is drawn to the warmth and beauty of the natural wood. These kitchen furniture pieces are artistic sculptors with a fresh, clean, urban style.

Pride In Craftsmanship

There is no doubt that our craftsmen love and know wood and are experts in crafting American Hardwoods into top quality products of beauty, durability and function. The core wood species of Boos Blocks® legacy comes from a renewable and sustainable source of North American Hard Rock Maple. Other commonly used species are American Cherry, American Black Walnut, and Appalachian Red Oak. North American Hard Rock Maple, in particular, is recognized as one of the most durable, long lasting and best food preparation surfaces in the world.

Our pride in our craftsmanship is branded to add the final touches to your Gourmet Furniture. John Boos & Co. makes their product under ideal working conditions by craftsmen who love their work, have a passion for fabrication, and handles each step of their fabrication until the shipping of the finished product. Strict quality assurance is involved every step of the way.

Buyers Guide Information

Edge Grain

Made with 1.75" wide strips of wood that can be full length strips or finger jointed (random lengths) glued together with the quarter sawn face or edge grain up.

End Grain

Made up of many little squares of wood, cut and stood on "end".

Varnique Finish

A smooth semi-gloss finish, this type of finish is used for aesthetic purposes or for general food preparation tasks, including rolling dough, but you do not wish to cut upon it directly for it will damage the varnique finish. This finish requires low maintenance and can be easily cleaned with mild soap and warm water and will not need refinished or re-oiled. Varnique is also more resistant to water spotting and staining. If varnique surface is cut, it will need to be resealed.

Natural Oil Finish

A natural oil finish, this type of finish is used as a cutting surface and is food-safe. The natural oil finish seals and protects the surface of the wood and unlike the varnique finish, can be cut directly upon the surface. It is recommended to re-oil the wood surface every 3-4 weeks depending on the amount of use and household conditions. This maintenance keeps the wood surfaces from drying out and helps preserve the wood fibers and extend its life over time. Natural oil finishes can easily be sanded and re-oiled for a like-new appearance.

Care & Maintenance

Care & Maintenance is an important step in keeping your Boos Block[®] Gourmet Furnishings fresh and long-lasting for many years to come. We recommend regularly applying (once every 3-4 weeks) an even coat of Boos[®] Mystery Oil and Boos Block[®] Board Cream to any working wood surfaces or utensils. Depending on frequency of use as well as the seasonal level of humidity in the working atmosphere, the wood surface may require more frequent applications. Boos Block[®] Board Cream and Boos Block[®] Mystery Oil will replenish the moisture lost from repeated washings, keeping your wood top surfaces from drying, bleaching, and cracking.

Boos Block[®] Mystery Oil NSF

Used On Penetrating Oil Finish Products

The Boos Block[®] Mystery Oil is a food-grade mineral oil and a thinner product than the Boos Block[®] Board Cream. It easily absorbs and penetrates deeply into the grain of the wood to help protect and revitalize the wood fibers. When using the oil, it is recommended to apply a generous amount and let it sit overnight. Add more oil if there are dry spots or for any other necessary reason. Boos Block[®] Mystery Oil is recommended to be used before applying the Boos Block[®] Board Cream.

Available in cases of 16oz or 2oz bottles.

Boos Block[®] Board Cream With Beeswax

Used On Penetrating Oil Finish Products

The Boos Block[®] Board Cream contains natural, unbleached beeswax and a food-grade mineral oil formula. The Board Cream is a denser, thicker product than the Mystery Oil, which gives a protective layer to the board against food and moisture. Beeswax does not evaporate as quickly as the oil which helps keep the oil in and the water out. When using the Board Cream, it is recommended to apply directly onto the wood surface, massage it with a disposable towel into the wood grains. Let it sit overnight and remove excess Board Cream with a disposable towel. Boos Block[®] Board Cream is recommended to be used after applying the Boos Block[®] Mystery Oil.

Available in cases of 5oz tubes.

EZ-DO

EZ-DO is the perfect match for varnished finishes. This can also be used on oil finished tops. Seals and protects wood surfaces in one easy step. Makes repairs and fabrication a simple operation. Easy fast drying application. Water and alcohol resistant that is non-toxic and lead free. No runs or lap marks.

Available in cases of 1/2 pint, 1 pint, or 1 quart.

Boos Block® Stainless Steel Cleaner

All natural streak-free formula that produces a beautiful shine on appliances and all stainless steel surfaces. Cleans food residue, fingerprints, and kitchen grease. Safe for use in food handling environments. Breezy Citrus Orchard scent, fine mist.

Available in cases of 8oz bottles.

Limited Time Product Warranty

The only warranty, expressed or implied, is a one year guarantee against defect in workmanship and material.

This warranty does not apply to damages which may result from neglect, accidental or intentional damage, damage or wear to any swivel mechanism, normal wear and tear, misuse of product, unauthorized repair, exposure to extremes in temperature and humidity, and alteration or abuse of the product. Wood products ordered "unfinished" do not come with a warranty.

Repairs or replacement under this limited warranty will be made through an authorized John Boos & Co. distributor, if possible the same dealer/distributor from which the product was purchased. Should the dealer or factory representative find return of the product to the factory necessary, all packing and shipping costs will be the responsibility of the customer. If a dealer/distributor is not available, contact the Customer Service Department at John Boos & Co. 3601 S. Banker St, Effingham, IL 62401 for the name and location of the nearest authorized distributor.

Factory obligation under this warranty, is limited, at the option of John Boos & Co. to repair or replace the product (or one of equal type and quality if the product is no longer available), within 90 days after receipt of written recommendation from the dealer, provided none of the above exceptions are evident. John Boos & Co. shall not be liable for any loss or damage arising from use, or for consequential damages. This warranty gives certain legal rights and there may be other rights that vary from state to state.
